

**HOLMES APPROVED HOMES & NORSEMAN CONSTRUCTION &
DEVELOPMENT
Letter of Support**

A Message from MIKE HOLMES, North America's Most Trusted Contractor

Norseman Construction & Development are committed to constructing homes right, and I am proud to welcome them to my Holmes Approved Homes program. They know that a home is only as good as the construction that stands behind it, and that real value comes from building it right the first time.

Norseman Construction & Development is built upon providing superior service and customer satisfaction. They approach each project with professionalism and integrity and believe that a home must incorporate the personal preferences and vision of the owner in every respect.

When you choose a Holmes Approved home from Norseman Construction & Development, you are choosing one that's constructed and built to last. My inspectors examine your home during the construction process. They document everything they see, so you can relax and focus on creating a home that's perfect for you and your family—we make sure its done right.

Peace of mind is what we're about. Building right is what we're about. Giving you a home that is healthy, strong, and protected is what we're about. Because the only thing worth doing is doing something right.

Do you really get what you give? I believe it. And together, Norseman Construction & Development and the Holmes Approved Homes program are setting a new standard that takes residential construction to the next level—and it starts with your home.

Mike Holmes
President, The Holmes Group
